ABOUT ME

Recent Computer Science graduate with hands-on experience in web development gained through internship and academic projects. Eager to contribute to real-world projects and build a long-term career in the IT industry. Flexible and adaptable in learning new technologies, and willing to engage in collaborations and work in team environments. Seeking an opportunity to take on new challenges, grow professionally, and make a meaningful impact.

WORK EXPERIENCE

Freelancer   **2020 - 2022**
Web Developer - Student Assistance

- Assisted and supported students with their academic requirements, projects, and assignments, providing guidance on Java-based system projects like Point of Sale Systems, as well as web development projects such as a web-based dictionary and portfolio. Assisted with system design, development, modifications, and code debugging.

Internship   **June 2024 - Aug 2024**
Centralized Cloud Computing International Inc.

- Developed front-end features using Vue.js and Tailwind CSS for responsive design and task completion.
- Onboarded to a real-time team project, contributing hands-on development and gaining valuable teamwork experience.
- Converted Figma designs into web pages.
- Customize and modified the user interface by adding new features and refining the design.

EDUCATION

Tertiary Education   **Oct 2020 - July 2025**
Bachelor of Science in Computer Science
Mindanao State University - Main Campus

- Thesis: "A Text-to-Text Multilingual Machine Translation for Meranaw, Tausug, and Maguindanaon".
- Cum Laude

Senior High School   **2017 - 2019**
Strand - Information and Communications Technology
STI Ortigas Cainta
